Rotopack

Rotopack SR230

The Rotopack range of sealing machines are ideal for sealing heat seal coated lids to Dualpak trays.

Available in 3 models, each accommodating several tray sizes, these easy to operate machines feature:

- Interchangeable tray carriers to suit Dualpak trays up to DP6111 (SR430).
- Simplistic operation with a manually operated sealing mechanism.
- Easy to clean and ideal for use in food preparation areas.
- Integrated dual lidding dispenser.
- Compact unit, suitable for limited space applications.
- Suitable for both continuous film and precut film lidding.
- Adjustable time and temperature controls.
